Senior Frontend Engineer | React, TypeScript, Next.js | 9+ YOE

Senior Frontend Engineer with 9+ years building production-grade React, TypeScript, and Next.js applications for Norwegian public sector, Swiss enterprise, and US startup clients. Specialist in scalable frontend architecture, performance optimization, design systems, and WCAG-compliant accessible UIs. Led frontend teams of 3+ engineers and mentored developers in remote-first, distributed environments across time zones. Statistics background drives an evidence-based approach — profiling before optimizing and grounding decisions in real performance data. Hands-on experience integrating LLM-powered features into modern web applications.

WORK EXPERIENCE

CEFALO • Nov 2022 - Present

SENIOR SOFTWARE ENGINEER

- Architected the frontend of a dynamic form-builder platform used across Norwegian public sector clients — **reduced form rendering latency by 40%** through optimized rendering and memoization.
- **Led a frontend team of 3+ engineers**, owning architecture decisions, code reviews, and technical mentorship across product squads.
- Introduced scalable Redux architecture and React best practices, **reducing tech debt and cutting new feature onboarding time by 50%**.
- Built interactive data visualization dashboards in Svelte and TypeScript, optimized for performance and usability.
- Acted as technical advisor across teams, guiding frontend decisions and aligning architecture with the long-term product roadmap.

SELISE • Sep 2020 - Oct 2022

SOFTWARE ENGINEER

- Developed a customer-facing insurance platform for a Swiss enterprise using **Angular, TypeScript, RxJS, and Material UI** — **improved user retention and conversion by 20%**.
- Built a reusable component library ensuring UI consistency across modules and accelerating feature delivery.
- Refactored frontend–backend communication layer, enhancing API performance and **reducing data-fetching issues by 35%**.
- Consistently delivered high-quality code under tight deadlines in a fast-paced Agile environment with international stakeholders.

KINSHIP AI • Dec 2017 - Aug 2020

FRONTEND ENGINEER

- Built responsive, pixel-perfect UI with React for a US startup — **fully remote from Dhaka, three years before remote became mainstream**.
- Achieved full WCAG accessibility compliance and cross-device, cross-browser compatibility.
- Streamlined UI state management with Redux, leading to a **25% decrease in frontend bugs** and smoother user interactions.
- Collaborated asynchronously with US-based designers and backend developers across time zones, establishing reusable component patterns.

SPONDON • Sep 2016 - Nov 2017

FRONTEND WEB DEVELOPER

- Delivered **15+ responsive HTML5 templates** (education, SaaS, and hospitality) — **100% approval rate on ThemeForest**.
- Applied modern best practices (W3C standards, semantic HTML) to ensure cross-browser compatibility and SEO readiness.
- Transformed PSD designs into fully responsive interfaces using HTML5, CSS3, Bootstrap, and jQuery.

EDUCATION

Masters Of Science in Statistics • University Of Dhaka • 2013 - 2014
Bachelor Of Science in Statistics • National University • 2009 - 2012

SKILLS

Languages & Frameworks: TypeScript, JavaScript (ES2023+), React, Next.js, Redux, React Query, Angular, Svelte, HTML5, CSS3, SCSS, Tailwind CSS, Material UI, Ant Design, Framer Motion, Bootstrap, GraphQL, REST API, Socket.IO, jQuery, Jest

Tools & Environment: Git, GitHub, Bitbucket, CI/CD, Docker, Azure DevOps, Jira, Figma, Zeplin, Agile/Scrum
