SUMMARY

Senior software engineer with 9+ years shipping production web applications for Norwegian government agencies, Swiss insurers, and US startups. Currently own the biomethane product end to end on a European energy-market analytics platform — 70+ features and 30+ charts. Deepest years are in React, TypeScript, and Next.js, but I build the whole path: Node.js services, PostgreSQL behind them, and the Docker and CI/CD pipelines that ship them.

PROFESSIONAL EXPERIENCE

Senior Software Engineer — **Cefalo** Nov 2022 – Present

Dhaka, Bangladesh · Norwegian clients

- **Delivered 70+ features** in 8 months to a Svelte 5 / SvelteKit energy-market analytics platform — **owning the biomethane product's dashboards end to end**, and contributing across PPA and EAC
- **Built 30+ ECharts** data visualisations backed by TanStack Query and a Sanity-driven content layer
- **Architected** a dynamic form-builder platform for Norwegian public sector clients — cut form rendering latency by **40%**
- **Developed RESTful APIs** with Node.js and integrated backend services for clean data flow; **introduced** a scalable Redux architecture that cut new-developer ramp-up by **50%**
- **Led** a frontend team of 3+ engineers, owning architecture decisions, code reviews, and technical mentorship across product squads

Software Engineer — **Selise** Sep 2020 – Oct 2022

Dhaka, Bangladesh · Swiss enterprise

- **Developed** a customer-facing insurance platform in Angular — improved user retention and conversion by **20%**
- **Built a component library** ensuring UI consistency across multiple modules and simplifying development
- **Refactored** the frontend–backend communication layer, reducing data-fetching issues by **35%**

Frontend Engineer — **Kinship AI** Dec 2017 – Aug 2020

Remote · US startup

- Built responsive, **pixel-perfect UI** with React — full **WCAG accessibility compliance** across devices; Redux state work cut frontend bugs by **25%**
- **Collaborated asynchronously** with US-based designers and backend developers across time zones, fully remote from Dhaka

Frontend Web Developer — **Spondon** Sep 2016 – Nov 2017

Dhaka, Bangladesh · International clients

- **Delivered 15+ responsive** HTML5 templates across education, SaaS, and hospitality — **100% approval rate** on ThemeForest

SKILLS

Frontend	React, TypeScript, Next.js, Svelte 5 / SvelteKit, Redux, TanStack Query, Angular, ECharts, Sanity CMS, Tailwind CSS, SCSS, WCAG accessibility, performance optimisation
Backend & Infrastructure	Node.js, Express, REST API design, GraphQL, NestJS, PostgreSQL, Prisma ORM, Socket.IO, Docker, CI/CD pipelines, AWS, Azure DevOps, Git, Vite, unit testing
AI & Leadership	Claude and GPT API integration, LLM-powered product features, AI-assisted coding with Cursor and Claude Code, full-stack architecture decisions, code review, technical mentoring, cross-timezone stakeholder communication, Agile / Scrum

EDUCATION

Master of Science in Statistics 2013 – 2014

University of Dhaka

Bachelor of Science in Statistics 2009 – 2012

National University
